

Power Up Skin's Structure

- Hydrolyzed marine collagen is an excellent source of essential and non-essential amino acids, which are involved in protein synthesis – collagen being the most predominant protein in our bodies. Combine these amino acids with Vitamin C, which also supports collagen formation and you have a dynamic formulation.
- Helps with skin smoothness.

Our product philosophy is simple: we always put you first. You've trusted Mary Kay for more than 40 years to bring you efficacious products with proven results. Mary Kay® Daily Benefits™ is no different. This line of nutritional supplements continues the tradition of maximizing beauty, now starting from the inside out.

POWER STATEMENT:**Power Up Skin's Structure.****Benefits**

Daily Benefits™ Collagen gives the body the nutritional building blocks it needs to support skin's foundational structure. The powerful, proprietary blend of hydrolyzed marine collagen, and vitamin C helps build collagen, while biotin helps support healthy skin and nails.

Ingredients**Hydrolyzed Marine Collagen**

- Hydrolyzed marine collagen in Daily Benefits™ Collagen is sustainably sourced from cod fish.
- Collagen is an excellent source of essential and non-essential amino acids which are the building blocks of protein – collagen is the most abundant protein in our bodies.
- Collagen naturally declines with age, which can lead to wrinkles.

Vitamin C

- Helps in connective tissue and collagen formation both of which help support healthy skin
- Has powerful antioxidant properties that help protect cells from oxidative stress caused by sunlight and air pollution generated free radicals

Biotin

- Helps maintain the body's ability to metabolize nutrients
- Biotin helps maintain healthy hair, nails, and skin

Usage

For adults 18 and older. 1 scoop per day. Use daily or every other day over a 30-day period.

Consult a health care practitioner prior to use if you are pregnant or breastfeeding. Consult a health care practitioner prior to use if you have any underlying medical conditions.
