

Goal Setting

"DON'T LIMIT YOURSELF. MANY PEOPLE LIMIT THEMSELVES TO WHAT THEY THINK THEY CAN DO. YOU CAN GO AS FAR AS YOUR MIND LETS YOU. WHAT YOU BELIEVE, REMEMBER, YOU CAN ACHIEVE."

- MARY KAY ASH.

Why Set Goals?

- When goals are set, things happen!
- Goals make you feel good about yourself and provide attitude adjustments.
- Goals establish self-discipline, motivation, good habits and patterns to follow.
- Goals give you direction and purpose, and take you where you want to go.
- A goal will stop others from controlling your life.

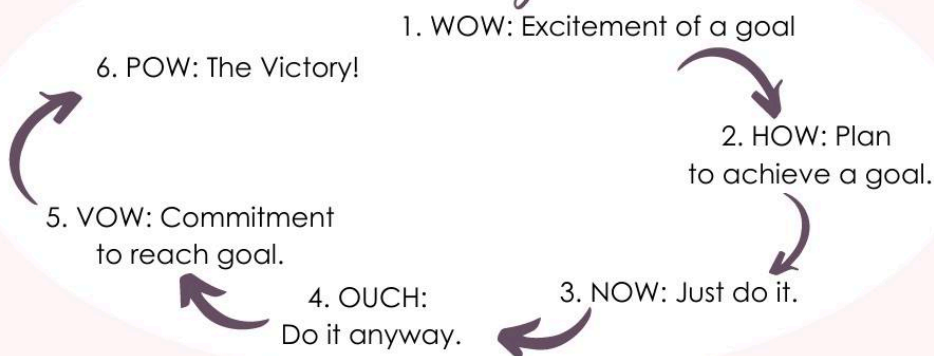

Setting a goal:

1. Decide exactly what you want - be very specific.
2. Aim high - you should have "butterflies." Stretch your limits.
3. Create visuals. The subconscious mind accepts all information as fact & cannot distinguish between what is real and what is imagined & believed.
4. Involve family members. Find out what's in it for them.
5. Pick someone to emulate.
6. Define where you are and where you need to be.
7. Determine what you are capable of in a day, a week, a month & year.
8. Write your goals in detail & talk about them with appropriate people.
9. Focus on your goal daily. If a goal is not focused on for three days, it's as if it never existed.
10. See goals as if they had already happened.
11. Keep your FOCUS. (Follow One Course Until Successful.)
12. Quitting is not an option.
13. Set another goal immediately upon reaching a goal.

Goals Can Be Negative if:

1. They are too big.
2. They are out of your sphere of interest.
3. You believe luck is necessary to achieve it.
4. You set your goal by comparing yourself with others' accomplishments.
5. You are doing it for someone else.

The Goal Cycle:

Reasons Most People Do Not Set Goals:

1. They are not sold on the benefits.
2. They feel it's safer not to.
3. They fear commitment, failure or success.
4. They have a poor attitude or focus.
5. They don't want to work.
