

LIP SAVERS

- Use an empty paper towel or toilet paper roll.
- Put a lip balm in the roll.
- Put tin foil on each end of the tube.
- Tape your lip saver sheet to the tube. (You may want to trim a little bit depending on the size of your tube.)
- And wa-la! :)

Thank you to who ever came up with the idea. I just recreated it from an idea I saw on Pinterest! - Monica Goubeaux MK Sales Director.
