

**Dual-phase formula gently and effectively
removes all forms of eye makeup.**

- Effectively removes all types of mascara, including waterproof formulas.
- Gently removes eye shadow and eyeliner without tugging or rubbing.

The skin around the eyes is the thinnest, most delicate skin on the face.

GOING, GOING, GONE!

Watch eye makeup disappear with Mary Kay's beloved Oil-Free Eye Makeup Remover. This 100% oil-free formula removes even the most intense eye makeup with a few simple swipes. Waterproof mascara? No problem. Bold, liquid eyeliner? Poof! It's gone. Take it all off with no tugging, no rubbing, no greasy after-feel. It's an impressive disappearing act you'll want to repeat night-after-night.

Sleeping in makeup is a well-known "no-no" and can contribute to clogged pores and breakouts. Oil-Free Eye Makeup Remover takes the hassle out of nighttime cleansing so you can prep eyes for your favorite *Mary Kay*® eye cream. Take it easy on your eyes and on the planet: This eye makeup remover is not only ophthalmologist- and dermatologist-tested and suitable for sensitive skin, but its bottle and cap are made from Post-Consumer Recycled (PCR) materials, allowing for further alignment with the Mary Kay commitment to the environment.

Directions

Shake until blended. Apply a small amount to cotton ball or pad. Close your eye and gently wipe away all traces of eye makeup.

How It Works

This dual-phase formula gently removes all types of eye makeup.

- The top phase features a special blend of skin conditioning emollients to effectively remove waterproof eye makeup.
- The bottom phase combines purified water and a mild surfactant to remove non-waterproof (water soluble) eye makeup.

The two phases pair beautifully together to create an emulsion that provides powerhouse removal. Shake well before use to achieve optimum effectiveness.
