Additional uses for the Satin Hands® Protecting Softener

- ◆ Apply to damp or wet legs *before* Satin Smoothie Scrub to add deep moisturization prior to shaving.
- ◆ Rub onto lips for deep moisturization at night.
- ◆ Rub into nail beds before bed to soften cuticles.
- ◆ Rub on to feet and heels at bed time to deeply moisturize overnight.
- ◆ Apply in small amounts to extremely dry areas of the face.
- ◆ Apply to knees and elbows for extra hydration in these areas.

Application Tip: When using this product alone, dispense a small amount into the palm of your hand, rub hands together swiftly to warm the product before applying to elbows, knees and feet for faster absorption.

HOW IT WORKS

The products in the Satin Hands® Pampering Set work together to keep hands irresistibly smooth and super-soft.

Step 1: The Satin Hands® Hand Softener provides instant hydration by sealing in moisture and leaving hands protected. Hands will feel smooth, silky and supple.

Step 2: The Satin Hands® Satin Smoothie® Hand Scrub exfoliates. It removes dead surface skin cells while instantly smoothing, leaving hands feeling soft and looking healthier.

Step 3: The Satin Hands® Hand Cream provides up to 24-hour moisturization. This luxurious formula absorbs quickly and provides a protective layer on your hands that lasts through several hand washings.

Additional uses for the Satin Hands® Satin Smoothie® Scrubs

- ◆ Use 2x a week in the shower from neck to toes to exfoliate. This will allow your body moisturizers to penetrate more deeply and better hydrate your skin.
- ◆ Apply to legs over the Softener for a silky smooth shave & add deep moisture at the same time.
- ◆ Keep at all sinks and use for daily hand washing. Won't strip your skin or over exfoliate.
